**Elective Training**

**ALL SEASON!**

**Skills to Pay the Bills**

*Designed for Alpine Instructors.*

Spend half of a day through the eyes of one of our top trainers to see how they utilize the varying terrain in the beginner zone to their advantage. A versatile and fun approach will bring your classes back for more. (on snow)

**Core Skiing Demos and MA**

*Designed for Alpine Instructors.*

It's a great time to play with your own skiing and improve the overall image of the school. We all need work...so get out there and play a little. (on snow)

**Changing it Up in the Blue Zone**

*Designed for Alpine Instructors*

Play with your turn radius, alignment and practical movement while becoming more proficient on steeper terrain. Gain versatility, rhythm, and flow. (on snow)

**Headed to the Mountain**

*Designed for Alpine Instructors*

By teaching on the proper terrain, guests will learn at a faster rate. In a safe environment, group dynamics, and skill development will happen more quickly and your crew will come back for more. (on snow)

**Great Skiing**

*Designed for Alpine Instructors.*

Holy "\$%\*" did you see that guy ski?" What makes a great skier? Learn how to make accurate observations and articulate them in a concise way. (indoor)

**Max 3 Teaching and MA**

*Designed for Adult Alpine Instructors*

Planning to teach Max 3? Then you need to know how! Have fun with your crew as you go through the Pocket Coach and the Focused Learning Concept, and learn how to effectively deliver a great Max 3 product for your guests. (on snow)

**Upper Level Tactics**

*Designed for Alpine Cert 2 Instructors and Above*

Pressure control....what is it and how do we use it to our advantage? Learn skills and tactics that will make you look good and will have your guests coming back for more. (on snow)

**Family Privates**

*Designed for All Instructors*

How to handle Dad, Mom and the Fighting Twins. Learn to identify and build on family dynamics that support a fun, safe and productive learning environment for everyone involved. (on snow)

**Facilitating Change**

*Designed for All Instructors.*

Develop a greater understanding and ability to introduce new movements and skills so that your guests can enjoy the mountain to a higher degree. (indoor)

**Bringing the Teaching Cycle to Life**

*Designed for All Instructors*

By combining teaching and learning styles with a consistent application of the Teaching Cycle, you can deliver a more powerful lesson and bring the guest back for more. (on snow)

**Our Performance System**

*Designed for All Instructors.*

Learn how the top instructors manage their business under the Ski and Snowboard School umbrella. Negotiate the incentive web, maximize the pathway to learning, earn more income and deliver a better product. (indoor)

**Exceptional Privates Lessons**

*Designed for All Instructors.*

How do they do it? Learn how the private lesson pros bring their clients back for more and are greatly rewarded for doing so. Hear key essentials to gaining the trust and respect of our best guests. (indoor)

**SB-Changing it Up in the Blue Zone**

*Designed for Snowboard Instructors*

Gain versatility, rhythm, and flow on steeper terrain. Increase your knowledge of how separation and alignment can be used to change turn radius and manage speed control. (on snow)

**SB-Upper Level Tactics**

*Designed for Snowboard Cert 2 Instructors and Above*

Pressure control-one of the 3 skills that will help you own a versatile, professional image. Work in varying terrain and conditions applying Timing, Intensity and Duration. (on snow)

**SB-Core Riding Demos and MA**

*Designed for Snowboard Instructors*

Have a great time on snow and practice your demos in order to present a professional and accurate image for the guest. (on snow)

**SB-Great Riding**

*Designed for Snowboard Instructors.*

Great riding, is it or isn't it? What makes the greats, great? Make accurate observations and learn how to articulate them in a clear and concise way. (indoor)

**Ski With a Top Performer**

*Designed for Vail Village Instructors*

Ever wonder how some instructors stay at the top? Come learn and share the "time tested tricks of the trade" from a high performer. Find out why their guests want to come back for more. (on snow)

**Teaching Playgrounds**

*Designed for 3-6 Alpine Instructors*

It's a big mountain out there and a huge playground. Learn how props and terrain based teaching will help to introduce skills to the little ones. (on snow)

Note: Before signing up for training in RPOS, please read the descriptors to ensure that the training is designed for your needs.
