Instructor Training Clinic Info You Need to Know

With constantly changing terrain and conditions, we've been making daily updates to our clinic offerings.

Clinic schedules are subject to change based on terrain, business levels, traffic, and trainer availability. Please check for updated clinic details before heading to training.

All on-snow clinics currently meet in the Lionshead base area.

Once Gondola One opens with connections around the mountain we will resume training launches from Vail Village as the primary start location.

How Do YOU Choose Your DIN Settings?

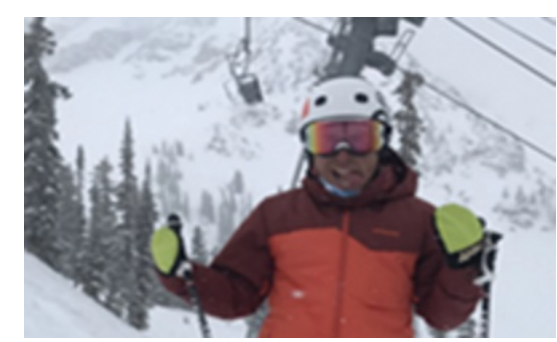

Choosing your DIN setting is your responsibility, and is an important part of keeping yourself safe on the mountain. DIN is set based on your weight, height, and ability level, and determines the amount of force it will take to make your ski release.
